

Accoya Case Studies Revisited

Tweedbank, Scotland

Eildon Housing Association

September 2007

the world's leading high technology wood

Project Detail

- Twenty one new energy efficient homes featuring windows and doors clad in Accoya® have been completed in the Scottish Borders.

Eildon Housing Association chose Accoya® for the new homes at Tweedbank, Melrose, after spotting the product's aesthetic and durable qualities. More than 11,000 linear metres of Accoya®, finished with a quality Sikkens coating by Environmental Coatings, was supplied to the project by Arnold Laver.

“We are delighted with the performance of Accoya® , which reflects our commitment to increased sustainability levels and innovative technology.” Laurence Cox of Eildon Housing Association
